CHICAGO, Sept. 28.—A general reduction in food prices was predicted today by Sol Westerfeld, president of the Retail Greers' association, who declared that all articles of food with the exception of eggs and butter, are due for a steady decline. The unwillingness of banks to lend money except at high interest rates has resulted in producers cutting prices to move their good, Mr. Westerfeld said.

"The reductions have already been felt all over Chicago," he said. "Po-tatees are now seiling a! from 45 to of cents a peck, the lowest price in years. I expect that they will reach a price of less than 2 cents a pound. "Tomatoes are selling for 10 to 15 cents for two and one-half pound baskets. Sugar has dropped to 16 cents, and will go still lower when the new cron-comes in

"The canned goods now being packed will have to be sold cheaply to move it, despite continued high wage costs." Mr. Westerfeld said, "because the banks will not bean the canners enough money to carry the stock.

The declines in wheat prices have brought a sharp drop in flour he continued. "Although the bakers' production costs have increased someprice of brend. Content the last few

"Fruit prices are at a minimum. Despite the excessive dry, warm weather, there are large quantities of peaches to be had for \$1.50 a case. This is decidedly less than the prices

demanded in 1914.

"Generally, only low prices are in sight. Although it means iffancial loss to some producers and distributors, the nation as a whole will benefit and a return to normal conditions will be effected."

Ridgelys believes that the Tri-State Fair is something too valuable to be measured in terms of dollars and

"It's a something that is educational, refining and inspiring, and education, refinement and inspiration can not be altogether purchased.

Its features, made broader and better with each successive year, are such that every man, woman and child in this community may

study them with profit and adapt whatever he there learns to his individual benefit.

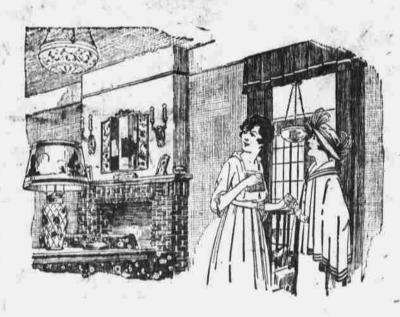

So "let's all go."

A look at the sleek, fat cattle, at the beautiful horses, at the rosy-cheeked apples, at the sheaves of golden grain will help us to realize what a wonderful land is ours and how fortunate we are to live here.

Laugh at the women and their slavery to style if you will, but style is progress.

Manufacturers of electric fixtures have found it profitable to bring out new styles. To make them sell, however, they had to improve the fixtures-to produce better home lighting. The women are responsible. A man would have a cord and one lamp suspended from the parlor ceiling!

Mister man, the electric fixtures in your home are out of date. Friend wife has probably suggested new ones. Your friends are getting the modern things.

The electrical contractor-dealer can prove to you that new electric fixtures cost less than new furniture, and that if you will consider the proposition thirty minutes you'll transform your home lighting scheme in nearly every room.
